

Workshop on General Relativity and Geometric Analysis

January 22 - 28 at Monash University in Melbourne, Australia

Organizers

Maria Athanassenas, Robert Bartnik, Michael Eichmair,
Pengzi Miao, Gertrude Nayak, Todd Oliynyk

Confirmed Participants

Lars Andersson (Albert Einstein Institute)
Ben Andrews (Australian National University)
Shiu-Yuen Cheng (Hong Kong UST)
Julie Clutterbuck (Australian National University)
Daniel Daners (University of Sydney)
Ailana Fraser (University of British Columbia)
Lan-Hsuan Huang (Columbia University)
Thomas Leistner (University of Adelaide)
James McCoy (University of Wollongong)
Jan Metzger (Albert Einstein Institute)
Richard Schoen (Stanford University)
Yuguang Shi (Peking University)
Neil Trudinger (Australian National University)
Mathai Varghese (University of Adelaide)
Bryan Wang (Australian National University)
Mu-Tao Wang (Columbia University)
Xiaodong Wang (Michigan State University)
Xu-Jia Wang (Australian National University)
Naqing Xie (The Chinese University of Hong Kong)
Feng Xu (Australian National University)
Shing-Tung Yau (Harvard University)
Xiao Zhang (Chinese Academy of Sciences)

Australian Government
Australian Research Council

Two black holes collide

Visualization: Michael Kopitz
(Max Planck Institute for Gravitational
Physics/Zuse Institute Berlin)

Numerical Simulation: Christian Reisswig,
Luciano Rezzolla (Max Planck
Institute for Gravitational Physics)
